CREATIVE SXFI CARRIER

Creative SXFI CARRIER heralds a new dimension in Dolby Atmos® soundbar technology with built-in Super X-Fi® spatial holography to create a multispeaker cinematic experience at the comfort of your home. Pair it up with the SXFI THEATER 2.4 GHz wireless headphones (optional purchase) and enjoy the same theater-like audio immersion privately when needed.

Following the Footsteps of Sonic Carrier Dubbed by Industry Experts as the "SOUNDBAR OF THE GODS" as quoted by AVS Forum.

Jointly developed by Creative and Dolby Laboratories, the SXFI CARRIER soundbar has the same sound signature as the 15.2 Sonic Carrier at less than half the size and at a fraction of the price. Even with a scaled-down size, the Creative SXFI CARRIER can transform your living room to provide a full-fledged cinema experience.

spatial holography

PERSONALIZED SPATIAL HOLOGRAPHY

Super X-Fi brings you realistic spatial audio on headphones through a sophisticated computational audio process. This spatial audio reverses the claustrophobic effect, pushing the sound outside again, so that it sounds natural, just like in the real world.

Everybody hears sound differently due to the shape of one's ears. Super X-Fi uses Artificial Intelligence to map the individual's head and ears, so it sounds perfect and natural, just the way it should be!

CREATIVE SXFI THEATER

is a low-latency, 2.4 GHz wireless headset with built-in Super X-Fi technology, bringing you spatial holographic audio that is personalized to your ears. Enjoy a rich and immersive audio experience akin to the cinema, with seamless audio and video sync, in the comfort of your home.

LOW LATENCY WIRELESS

CREATIVE SXFI AIR GAMER

is both a versatile wired gaming headset with Bluetooth® 4.2 that delivers zero-latency USB-C gaming audio and a wireless surround sound for movies. The headset offers up to 11 hours of playtime and debuts GamerChat, where you can listen to both game and chat audio simultaneously with Super X-Fi headphone holography.
